

# Expert Analysis

## Accessibility | Solutions

Accessibility compliance is an ever increasing issue in today's courts.

Not all claims are founded and require a thorough understanding of the codes and laws affecting your project. Site access, the work environment and public accommodation are a few of many concerns often raised in access compliance.

Michael Love, IIDA, RAS, ICC has assisted with expert testimony and reports for a variety of accessibility issues in the recent years. Included are individual cases to significant class action decisions affecting the applications of our guidelines today.

Atelier is well versed in requirements of ADA, ABA and Texas Accessibility. Remediation of non-compliant elements can be readily addressed by our team to identify and resolve barriers that may exist. Our goal is to move toward a quality solution, meeting the required standards and complementing the image you set for your client.
